

POINT of CONNECTION (POC)

DESCRIPTION

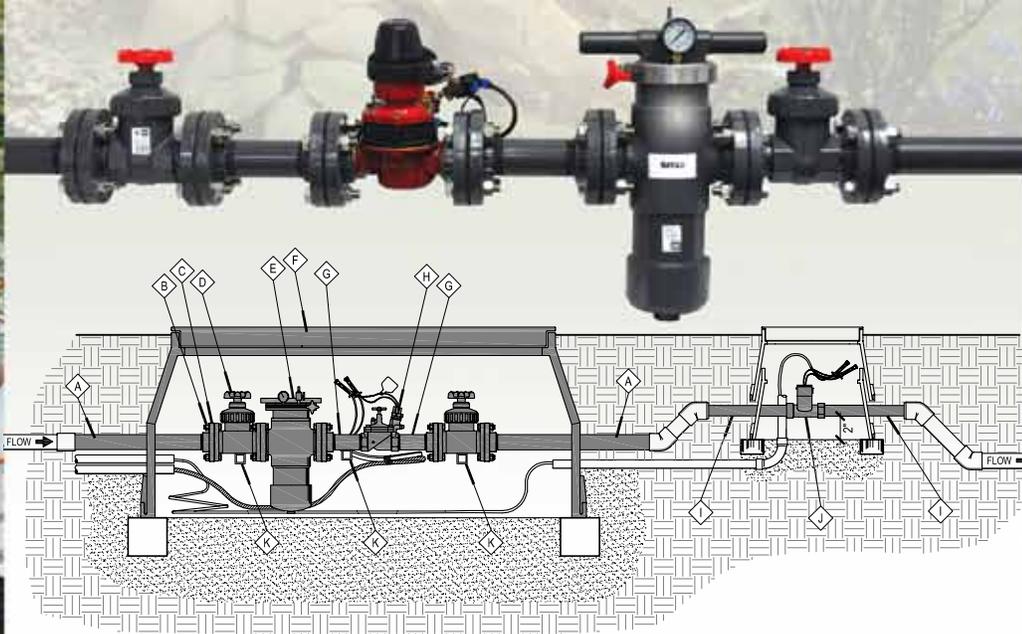

The **SiteOne Green Tech** Point of Connection Assemblies set the standard for pre-packaged installations. The pre-fabricated assembly ships in a durable, vandal resistant, heavy duty valve box.

The contractor simply sets the valve box assembly, connects the inlet/outlet piping, and connects the wiring to the master valve/flow sensor.

FEATURES AND BENEFITS

- 5-year warranty on products and assembly
- All stainless steel fasteners with torque per manufacturer's recommendations
- Shipped to site in a vault package with protection packing
- Prefabrication ensures an accurate fit
- Contractor connects to inlet and outlet for easy installation

- A** SCHEDULE 80 T.O.E NIPPLE
- B** BE STAINLESS STEEL FASTENERS
- C** SCHEDULE 80 PVC FIPT X FLANGE ADAPTER
- D** HEAVY DUTY SCHEDULE 80 FLANGED GATE VALVE WITH EPDM O RINGS
- E** HEAVY DUTY SCHEDULE 80 FLANGED BASKET STRAINER WITH 80 MESH STAINLESS SCREEN
- F** POLYETHYLENE VAULT WITH BOLT DOWN LID
- G** SCHEDULE 80 PVC THREADED NIPPLE
- H** MASTER VALVE - REFER TO POINT OF CONNECTION MODEL FOR SIZE AND TYPE
- I** SCHEDULE 80 PVC MAINLINE - REDUCED TO MATCH SENSOR INLET SIZE
- J** FLOW SENSOR - REFER TO POINT OF CONNECTION MODEL FOR TYPE AND SIZE
- K** ALUMINUM SQUARE BAR SECURED TO ENCLOSURE FOR PIPE SUPPORT
