

GT Touch Control

Sports Field Irrigation Controller

SiteOne Green Tech

brings touch screen
solutions to the sports
field environment.

Remote Monitoring Irrigation is now available through a variety of communication options!

Multiple Sensor Inputs include Flow, Moisture and Current, while delivering these capabilities with very low-energy consumption.

Green Tech's Touch Control screen provides a clear graphic interface with a bright adjustable LCD display for outdoor conditions, making it easy to view readings of data and images.

FEATURES:

- Number of outputs:
Up to 30 zones
- Vivid display for easy programming and control
- Wall Mount or Pedestal enclosure options (top or front entry)
- UL Approved energy saving design
- Rugged, durable, and built to last
- Customizable, user friendly programming
- Responds to commands and changes displays almost instantly
